## October 5, 2009 on Radio Green Earth

On

October 5, 2009, Radio Green Earth will be welcoming Madeline Kaplan, author of *Planet Earth Gets Well*, to discuss her book and her inspiration. *Planet Earth Gets Well* is a picture book that teaches children about protecting their environment with a memorable story about Planet Earth getting the “sniffles.” Holding a B. A. in Literature and an MBA, Ms Kaplan has previously written many articles on business but credits her three grandchildren with the inspiration to write *Planet Earth Gets Well*.

Radio Green Earth will also be welcoming Dr. Bradley J.

Bradford, M.D.,

Dr. Bradford

F.A.A.P, to talk about the novel H1N1 virus that has put the world on alert and how to best protect your family & environment. Dr. Bradford is president and founder of **Pediatrics by the Sea**

[\[http://www.pediatricsbythesea.com\]](http://www.pediatricsbythesea.com)

and past president of the Pennsylvania Chapter of the American Academy of Pediatrics. He is also the founding member of the American Academy of Pediatrics' Section on School Health.
